Recommendation Letter

Through this paper we recommend widely Project-Pro as a serious, hardworking and responsible company.

Thus it has been shown from April 2012 until the date of this letter in the two Seawater Desalination projects Intereurope has erected in Sorek and Ashdod. Performing tasks as professional manpower supply: forklift operators, safety managers, welders and pipe fitters workers. In total over 40 people between the two projects.

In addition to the tasks cited before, also Project-Pro has helped Intereurope in the accommodation of our workers, rent for us more than 15 apartments and giving us assistance with the work permits for all of them.

Due to all of these facts, Intereurope wants to thank Project-Pro the effort shown during all these time.

Best Regards,

Alberto de Blas

Project Manager INTEREUROPE
